

i14

One Convenient System For Ice And Water Dispensing

The i14 features a large capacity ice bin that holds 13.2 lbs and produces 44 lbs of popular tulip-style ice per day. It offers hot, cold, and ambient water options, combined with advanced hygiene features like hands-free sensor technology for touchless dispensing and certified reverse osmosis filtration. This unit also offers in-tank and in-storage bin LED UV to maintain clean water and ice. Built with reliable and dependable components, this solution includes a durable stainless steel cold tank, an advanced leak prevention system, and an eco-friendly energy-saving mode.
